

Conference options — January, March and April 2027

Evidence-grounded, claim-attributable biomedical QA (joint per-claim grounding vs post-hoc attribution) · Regions: Europe, Australia / NZ, South-East Asia · Version 2, 25 Sep 2026

1. Scope and assumptions

- **Months.** Conferences held in **January, March and April 2027**. Every main track, workshop, student and resource track found for these months is listed, including closed ones, so you can see the whole field.
- **Regions.** Europe, Australia / New Zealand and South-East Asia. Strong venues just outside the months or regions are listed separately in §4.
- **Paper constraints** (from ADR-0001 and research_roadmap.md §5–6): submission-ready about **1 Nov 2026**, buffer to 8 Nov; about 8 pages with a 5-table budget; the column format must be fixed by **5 Oct 2026** because Tables 1 and 4 are wide.
- **Status colours** are relative to 25 Sep 2026. **OPEN · best fit** **OPEN** = deadline on or after about 20 Oct, **TIGHT** = deadline before about 20 Oct (earlier than the writing plan allows), **CLOSED** = passed.
- Deadlines come from official sites or CfPs where they could be read. Rows marked 'not verified' need a check before planning around them. Deadlines are AoE unless stated.

2. Recommendation

1	EACL 2027 workshop — Athens, 9–14 Mar	Deadline 15 Dec 2026. ACL two-column 8 pp. Adopt the ACL template by 5 Oct. Watch for the workshop list from mid-October; target a biomedical / health workshop.
2	EACL 2027 SRW — Athens (if first author is a student)	Same deadline and template. Guaranteed to exist; optional mentoring round by 6 Nov.
3	MIE 2027 — Tallinn, 26–30 Apr	20 Oct 2026, 5 pp, PubMed-indexed. Fallback if no suitable EACL workshop appears. Needs the table cut about 2 weeks early.
4	ECIR 2027 resource track — Southampton, 21–25 Mar	2 Nov 2026, LNCS 12 pp. Only if the paper is reframed as a resource (gold attribution set + harness) and released publicly before review.
5	ESANN 2027 — Bruges, 21–23 Apr	18 Nov 2026, 6 pp. Through the biomedical data-science special session. Risk of desk rejection as an application paper.

Nothing in **Australia / NZ** falls in January, March or April 2027 that fits this paper: AJCAI and ALTA run in November–December, ACSW is in February, and HIKM moved online to September. **South-East Asia** has only ACIIDS (Bali) as a recognised venue in these months, and its deadline is 30 Sep 2026.

3. Venues by month

January 2027

No relevant European or Australian conference in January 2027 was found. The rows below are the South-East Asian options.

Venue	Where / when	Deadline(s)	Format / proceedings	Fit for this paper	Status
MMM 2027 Int. Conf. on MultiMedia Modeling	Siem Reap, Cambodia 5–8 Jan 2027	16 Aug 2026	Springer LNCS, 12 pp + 2 refs, single column, double-blind	Low. Multimedia venue. It has an e-health topic and multimodal-LLM special sessions, but a text-only RAG attribution paper is off-centre.	CLOSED
ICCRD 2027 Computer Research & Development	Singapore 15–17 Jan 2027	30 Sep 2026	EI Compendex / Scopus-indexed proceedings (commercial organiser)	Low. General computing; not a peer venue for NLP or medical-AI work. See the caution in §5.	TIGHT
ICSCA 2027 Software & Computer Applications	Putrajaya, Malaysia 22–24 Jan 2027	10 Sep 2026	ACM ICPS proceedings (commercial organiser)	Low. General computing.	CLOSED
APCT / APIET 2027	Jakarta, Indonesia 15–17 Jan 2027	5 Aug 2026	EI / Scopus-indexed proceedings (commercial organiser)	Low. General computing and education technology.	CLOSED

EACL 2027 — workshops European Chapter of the ACL	Athens, Greece 9–14 Mar 2027 (hybrid)	Workshop direct submission 15 Dec 2026 (tentative); notification 5 Jan 2027. Workshop CfPs go out from 13 Oct 2026.	ACL template, two columns; long papers usually 8 pp. ACL Anthology.	Best fit. The deadline falls after your 1 Nov submission-ready date. The format suits the wide Tables 1 and 4. Risk: the accepted-workshop list is not public yet, so a biomedical/health workshop (Louhi, CL4Health, BioNLP-type) is not confirmed.	OPEN · best fit
EACL 2027 — Student Research Workshop	Athens, Greece 9–14 Mar 2027	Mentoring draft 6 Nov 2026; direct submission 15 Dec 2026 ; notification 5 Jan 2027	ACL template; long 8 pp (+1 on acceptance), short 4 pp; archival or non-archival	Good, if the first author is a student. The deadline is guaranteed, unlike the workshops. The non-archival option keeps a later journal route open.	OPEN
EACL 2027 — main conference	Athens, Greece 9–14 Mar 2027	ARR 3 Aug 2026; commitment 11 Oct 2026	ACL, 8 pp	Only reachable through the August ARR cycle, which has passed.	CLOSED
EACL 2027 — Industry track	Athens, Greece 9–14 Mar 2027	11 Sep 2026	ACL, 6 pp	Open to academics, but needs a system deployed (or about to be deployed) for real-world use. Closed in any case.	CLOSED
EACL 2027 — System demonstrations	Athens, Greece 9–14 Mar 2027	22 Sep 2026	ACL, 6 pp + video + live demo	Closed.	CLOSED

The resource must be public in a permanent repository at review time. The deadline matches your plan.	OPEN
ECIR 2027 — Reproducibility track	Southampton, UK 21–25 Mar 2027	Abstract 12 Oct; paper 19 Oct 2026	Springer LNCS, single column	Weak. Only fits if the paper is recast as reproducing ALCE-style citation evaluation in the biomedical domain. Deadline is 2 weeks before your plan.	TIGHT

Venue	Where / when	Deadline(s)	Format / proceedings	Fit for this paper	Status
ECIR 2027 — Short papers	Southampton, UK 21–25 Mar 2027	Abstract 5 Oct; paper 12 Oct 2026	Springer LNCS, 6 pp + refs, single column	Weak. Three weeks early, and 6 single-column pages means cutting to about 2 tables.	TIGHT
ECIR 2027 — IR for Good track	Southampton, UK 21–25 Mar 2027	5 Oct 2026	Springer LNCS, 6–12 pp; requires a 'theory of change' section	Topic fits (public health is in scope), but the deadline is 10 days away.	TIGHT

Check the list at the end of October.	OPEN

ECIR 2027 — Full papers	Southampton, UK 21–25 Mar 2027	Abstract 21 Sep (passed); paper 5 Oct 2026	Springer LNCS, 12 pp + refs	Mandatory abstract registration has closed.	CLOSED
CHIIR 2027 ACM SIGIR Human Information Interaction & Retrieval	Berlin, Germany 7–11 Mar 2027	Full: abstract 8 Oct, paper 15 Oct 2026. Short/resource: 29 Oct 2026	ACM proceedings; in person	Low. Needs a user-centred angle (user study, trust in citations), which the paper does not have.	TIGHT
EvoStar 2027 — EvoApplications	Mainz, Germany 31 Mar – 2 Apr 2027	1 Nov 2026	Springer LNCS	Very low. Bio-inspired / evolutionary computation venue.	OPEN
ICIIT 2027 Intelligent Information Technology	Ho Chi Minh City, Vietnam 4–7 Mar 2027	30 Sep 2026	ACM ICPS proceedings (commercial organiser)	Low. General IT; see the caution in §5.	TIGHT

Costs: the deadline is 12 days before your submission-ready date, and 5 pages means cutting to about 2–3 tables.	OPEN
ESANN 2027 European Symp. on Artificial Neural Networks	Bruges, Belgium + online 21–23 Apr 2027	18 Nov 2026 ; notification 22 Jan 2027	6 pp proceedings paper (Scopus-indexed ESANN proceedings); hybrid	Moderate. The special session <i>Knowledge Discovery and Human-AI Collaboration in Biomedical Data Science</i> covers trustworthy / explainable biomedical AI. 5. Caution: commercial conference series

Searches for South-East Asian venues in these months mostly return conferences run by commercial organisers (for example ICCRD, ICSCA, APCT, ICIIT, and similar 'ICxx' events). They publish in Scopus- or EI-indexed proceedings, some through ACM ICPS, but they are not where NLP or medical-AI reviewers look, and they add little to a CV in this field. Avoid any event listed only on aggregator sites such as WASET, conferenceindex.org or allconferencealert.com: WASET in particular is widely regarded as predatory. None of these is recommended for this paper.
